

SPICA

PROCEDURE FOR REVISION

1. You must contact SPICA, in advance, for an RMA number. Shipments will be refused unless RMA is displayed on outside of carton.
2. Speakers must be shipped in both inside and outside original boxes with foam corners. Ship UPS when available, insured and prepaid. Spica will not be responsible for cosmetics of cabinets until unpacked here.
3. Include copy of purchase receipt and payment of \$200 in certified check or money order only.

UPON RECEIPT OF YOUR TC-50s SPICA WILL:

1. completely disassemble both speakers
2. revise both crossovers
3. install internal structural cabinet braces
4. fit improved woofers and tweeters
5. fit redesigned felt damping pads
6. re-test both speakers
7. re-box and return to you freight prepaid
8. reinstate the full 5 year warranty from date of revision

KEEP YOUR PAPERWORK, IT IS YOUR PROOF OF WARRANTY

That's all there is to it! Sit back, listen, and smile!

Thank you for your continued support.

SPICA TC-50 REVISION

Beginning January, 1988 Spica production will incorporate a number of major changes into the TC-50s.

THESE CHANGES ARE:

1. improved tweeter
2. improved woofer
3. revised crossover
4. redesigned felt damping pad
5. internal structural brace from baffle board to rear of cabinet

THESE CHANGES WILL RESULT IN:

1. increased efficiency (SPL)
2. extended high frequency response
3. improved imaging

This revision is being offered so that you can take full advantage of our continuing development without having to replace your current TC-50s. This revision is rather extensive so returning your speakers to us is a must.

The cost of this revision is \$200 per pair. We feel certain that you will consider it "money well spent".
